

SCL NA 2025 Annual Conference

SAN DIEGO JULY 16-18, 2025

Golden Opportunities: Pioneering New Frontiers in Construction and Construction Disputes

Our fourth annual conference in San Diego, California, celebrates the pioneering spirit of the construction industry: reaching new heights; advancing new technology; building bigger, better, and safer.

We will prioritize presentations that bring the construction project to life in a meaningful way for the audience, while also informing the audience about important legal issues, novel approaches to dispute resolution, trends in the construction industry, and/or innovative methodologies and techniques of construction.

All submissions must be provided by November 15, 2024 and decisions will be communicated by January 15, 2025.
